

Directorate Cash Logistics

List of successfully tested customer-operated machines

Last update: 05.09.2024

The test results are valid only for the type of the banknote handling machine tested by the MNB and its hardware and software version applied at the time of testing, its parameters settings affecting the checking of validity, while in the case of machines checking fitness for circulation as well, the parameters settings affecting the fitness selection criteria, as well as the test package used for testing.

The results of the testing shall not affect the responsibilities of

- a) the manufacturer or distributor of the given banknote handling machine type for the suitability for use and faultless operation of the machine, and
- b) the cash processing provider, the cash distributor or other economic agents for the compliance with the rules of forint banknote recirculation.¹

The manufacturer has declared that the additional machine(s) published in the line directly below a main machine type (in the „Type” field) has/have the same level of performance regarding the tested functionality as the tested machine.

| Tested machine data | | | | Manufacturer or distributor | Test data | | Other data |
|---------------------|------------------------|--|---|---|--------------------------|----------------------------|-------------------|
| Machine name | Function | Type | Hardware, software versions | Name, headquarters, postal address, e-mail address, website | Date of the registration | Version No of test package | |
